EDUCATION

Vellore Institute of Technology <i>Bachelor of Technology in Computer Science and Engineering CGPA - 8.23/10</i>	Aug 2023 – May 2027 Chennai, TN
IIT Madras <i>Bachelor of Science in Data Science and Applications CGPA - 8.76/10</i>	Sep 2023 – Present Chennai, TN
DAV Senior Secondary School <i>CBSE XII - 87.4% Centum in Computer Science</i>	Apr 2021 – Mar 2023 Chennai, TN

PROJECTS

Urban Eye <i>React Native, JavaScript, Cloudinary, Google Maps API</i> - Engineered a civic issue platform integrating mobile apps, backend, and admin dashboard - Developed User and Worker apps using React Native for real-time issue reporting and tracking - Implemented geolocation, maps, reverse geocoding, and Cloudinary signed uploads for issue tagging - Used React Context API for centralized state management and cross-screen data synchronization	Sep 2025 – Apr 2026
Vehicle Parking <i>Python, Flask, SQLite3, SQLAlchemy, HTML/CSS/JS</i> - Built a multi-user vehicle parking system with separate interfaces for admins and regular users - Implemented core features including booking, releasing, and tracking of parking spots across multiple lots - Designed and developed dashboards for managing parking lots, parked vehicles, and registered users - Defined relational data models using an ORM to manage users, parking lots, and vehicles efficiently	Jun 2025 – Aug 2025
Custom OS Kernel with Bootloader <i>C++, x86 Assembly</i> - Developed a custom operating system from scratch with a C++ kernel and an x86 assembly bootloader - Created a multi-stage bootloader menu that interacts via BIOS interrupts to load the kernel - Implemented low-level I/O handling, memory-mapped screen output, and keyboard polling - Designed a minimal shell with built-in commands and a basic login interface using direct video memory	Oct 2024 – Nov 2024
Mystery Maze <i>Java, AWT, Swing</i> - Built a Java-based desktop puzzle-adventure game with real-time strategy elements - Implemented AI enemy behavior, bomb mechanics, and destructible maze walls to enhance gameplay - Designed an algorithm for randomly generated levels combining exploration and problem-solving - Secured winner position in Game-A-Thon hosted by IIT Madras, organized in partnership with GMonks	Jun 2024 – Jul 2024

TECHNICAL SKILLS

Languages: Python, Java, C/C++, C#, Dart, HTML/CSS, JavaScript
Frameworks: React.js, Vue.js, Express.js, Flask, Flutter, React Native
Tools & Platforms: Git, AWS, Firebase, Unity, Bash, Postman
Databases: MongoDB, Mongoose, Redis, MySQL, PostgreSQL, SQLite3, SQLAlchemy

CERTIFICATIONS

- AWS Certified Cloud Practitioner - AWS Academy Graduate - Machine Learning Foundations	Jun 2026 – Jun 2029
--	---------------------

EXTRACURRICULAR

App Developer <i>Hack Club, VIT</i> - Collaborated in a team of 4 to build a cross-platform mobile app using React Native - Developed an interactive quiz interface where users answer questions to receive location-based hints - Implemented QR code scanning to progress through real-world checkpoints - Used React Navigation and state management to enable smooth multi-step user flow	Sep 2024 – Apr 2026 Chennai, TN
--	------------------------------------
